

**Get Peace of Mind
with Automatic Renewal**

AAA Auto Pay is the convenient way to pay your membership dues! There are no checks to write, no stamps to buy, no late payments and no risk of having your membership lapse. Choose AAA Auto Pay and your membership dues will be automatically charged to your credit card, debit card, or checking account each year. When you enroll using your credit or debit card, your account will be charged seven business days prior to the membership expiration date. Enroll by using your checking account and your account will be charged one day in advance of the expiration date. To learn more or enroll in AAA's Auto Pay Program, call 1-800-441-5008 or visit your local AAA branch office. To sign up online, log in to your membership account at AAA.com and select "Enroll" in the Bill.

Free Battery Wellness Clinics from AAA

October is Fall Car Care Month and AAA East Central is hosting Free Battery Wellness Clinics to celebrate. State-of-the-art diagnostic equipment will confirm whether your battery will hold a charge. If a new battery is needed, one can be installed on the spot. The high-quality, AAA-branded battery comes with a three-year, free-replacement warranty, and AAA members receive a discount. Battery checks will be available from 10 a.m. to 2 p.m. at these AAA office locations:

Thursday, Oct. 26

Rochester

- 300 Adams Street Rochester, 724-775-8000

No appointment necessary. If your battery fails the test, new batteries will be available for purchase and installed on the spot at a special AAA Member price.

REAL ID Extended to May 7, 2025

The Department of Homeland Security extended the REAL ID deadline to May 7, 2025. The REAL ID Act established minimum security standards for state-issued driver's licenses and identification cards and prohibits Federal agencies from accepting for official purposes licenses and identification cards from states that do not meet these standards. Beginning May 7, 2025, every state and territory resident will need to present a REAL ID compliant license/ID, or another acceptable form of ID for boarding commercial aircraft, accessing Federal facilities and entering nuclear plants. The Transportation Security Administration (TSA) considers a current passport or military ID acceptable identification for boarding an aircraft. For more information on Pennsylvania's REAL ID compliant license, visit dmv.pa.gov/REALID/Pages/default.aspx.

Find Lower Gas Prices with Auto Club app

Eager to find the lowest gas prices in your location? AAA's Auto Club app can help you save time and money by comparing prices of the nearest gas stations. The Auto Club app also goes beyond finding the lowest fuel prices. Members can use it to request roadside assistance, book travel reservations for flight, car rental, hotel, or cruise, and much more. To get the app, text APP10 to 86792 and you will receive a link to download it.

Australia's Outback a geological playground

Landmarks, waterholes, majestic scenery, wildlife define desert

Synonymous with a steakhouse, the “real” Outback often doesn’t get the respect it deserves. The arid landmass comprises most of Australia. From an aerial view, it’s brown and yellow. Up close, it’s stunning and intriguing.

The Outback is more than 2.5 million-square miles of vast geological wonders. Canyons and mountain ranges grab your attention. Cliffs and waterfalls steal your senses. Hiking and camping challenge your stamina. And unique wildlife species wander the area.

Uluru-Kata Tjuta National Park is one of the Outback’s prime destinations. Ayers Rock is the main attraction and one of its most recognizable landmarks. Photos may capture its beauty, but its essence is best experienced in person.

Kings Canyon is a massive gorge. Its cliff walls stand more than 300-feet high and offer majestic views in all directions. A Kings Canyon Rim Walk is essential upon visiting. It’s nearly four miles in length and requires an initial climb of 1,000 steps to the top of the canyon. There are several places to stop along the way and absorb the massive scenery.

You’ll encounter the Lost City – a series of sandstone domes – which resembles the structure of an ancient town. Cotterill’s Lookout offers amazing sights and Garden of Eden is a permanent waterhole and has one of the Outback’s

GORGE-OUS – Kings Canyon is an overwhelming sight in the Outback. *Image: boyloso. Adobe Stock.*

most striking staircases.

Kakadu National Park is the largest of its kind in Australia. Known for its majestic waterfalls, it also has several types of landforms that include cliff walls, gorges and floodplains. Koolpin Gorge Track, Nawurlandja Lookout, Barrk Marlham Walk and Twin Falls Plateau Walk are pathways that lead to the best sights.

It only seems appropriate that the Outback would have a bizarre side to it. Devils Marbles Conservation fills that

role. Round rock formations precariously sit atop one another. Erosion and weathering has changed the shapes of the granite stone to resemble marbles. Unusual, indeed.

The surprises don’t end with stone marbles. The Outback also has pristine swimming holes. Simpson Gap, Stanley Chasm, Ellery Creek and Serpentine Gorge comprise a bevy of waterholes. Cool off after an intense day of hiking and take a break from remembering

you’re in a desert.

Had enough hiking? Mereenie Loop Road allows you to witness the Outback by vehicle. The road links West McDonald Range and Kings Canyon. It slices through aboriginal land. Mountainous landscapes light up your eyes from the comfort of a vehicle.

Oodnadatta Track, meanwhile, is a multi-day drive that follows the abandoned Ghan rail line with several stops, including uninhabited ruins, salt lakes and natural springs. Lake Eyre, Wabma Kadarbu Mound Springs, Coward Springs and Hergott Springs are main stops. All capture the essence of the Outback.

Centuries of erosion have added mystical colors to the low hills of Breakaway Conservation Park. The overlooks are ideal places to watch the sunset. A colorful sky rests above unique rock formations, adding flavoring to their delectable appearance.

And don’t forget to admire the wildlife. The Outback is loaded with geological features, but the animals are equally as amazing. Australian feral camels roam the territory, along with wild hogs, a variety lizards and snakes – perhaps steer clear from the snakes – crocodiles and kangaroos.

The Outback is a wondrous land. You’ll find magnificent landmarks and many species. Just don’t expect a blooming onion.

Maintain composure after auto accident

Save lives, return to road quickly by following AAA steps

The sound of our vehicles colliding with another is distinctive and dreadful. What follows doesn’t get much better.

There are many ways to avoid crashes, but they don’t always work. Defensive driving and educational courses will lessen the odds. So will avoiding distractions. Drivers, however, need to be prepared, despite these actions.

Motorists are responsible for knowing what to do should they be involved in an accident. The most important step is making sure no one is injured, no matter who is at fault. Drivers, too, should know what to do to protect themselves from legal or financial problems.

Preparation is the best defense. Drivers should have pen and paper in their vehicles and a disposable or smartphone camera. An insurance card should be accessible. These steps will have a driver organized and reduce stress following a collision. Use of a mobile app, such as AAA insurance, can help properly document the event.

AAA recommends motorists involved in a crash follow these steps:

- Assist the injured. Quickly observe with those involved in the collision to determine if there are injuries. Call 9-1-1 if medical attention is needed, and make sure no one is in imminent danger.
- Control the scene. Get to a safe place before taking time to exchange information. Safely move

CRASH COURSE – It’s wise to set up reflective triangles to warn oncoming drivers that they are approaching a crash site. *Image: Paolese. Adobe Stock.*

the cars if they are drivable and there are no injuries. Turn on hazard lights and set out warning flares or reflective triangles. Do not leave the scene.

- Notify the police and submit a report. Law requires this step. A report can be filed by visiting a local police department or automobile insurance agency days after the

crash if law enforcement does come to the scene to open an investigation. Having a report could help if a liability claim is filed.

- Document the scene and exchange information. It is critical to exchange and gather information with all parties involved, including witnesses. Having this on file will help complete future paperwork or

address potential problems. AAA suggests documenting home and email addresses, vehicle information (make, model and years for cars involved), vehicle identification/license plate numbers, insurance carriers and policy numbers, and take photos of the location, those involved and damaged vehicles.

- Notify insurance carrier. The carrier will need to be notified following a crash to begin proper claim filing. Many companies have staff available 24/7 and can assist immediately.
- Get your car repaired. The driver has the right to get the vehicle repaired at body shop of their choosing. AAA suggests considering a AAA Approved Auto Body shop, which can be found by visiting AAA.com/Repair.
- Unattended vehicle or property. Take action to inform the owner if involved in a crash that involves an unattended vehicle or property. Attach a written notice of the collision if the owner cannot be located and include contact information and the information [list](#) above.

Drivers and owners of cars must be prepared to assume legal and financial responsibility if involved in a crash. AAA doesn’t recommend drivers to be pressured into admitting fault or providing information about the cause of the crash.

Air travelers in need beware

Scammers weaponize fake phone numbers

AAA is warning air travelers to use caution when seeking an airline’s phone number. A AAA Travel Advisor recently spoke about a scam targeting air travelers.

The scam specifically targets people who search for an airline’s phone number online because their flight has been canceled or delayed. The fake phone numbers lead callers to an unrelated third party that will ask for your reservation information and credit card number to pay for a “service fee” or price difference between flights.

In some cases, the “fees” are hundreds of dollars. AAA wants members to be aware of these types of scams to avoid falling victim and recommends:

- If your flight is delayed or canceled, and you are at the airport, speak with a gate agent in person or use the airline’s app.
- If you prefer to call the airline, use the toll-free number that appears on its website.
- An airline will not charge you for a canceled or delayed flight.
- Prior to a trip, download the airline’s app and save their toll-free number on your phone.
- To avoid these situations, work with a AAA Travel Advisor ahead of time and purchase travel insurance to cover incidental expenses like meals and lodging in the event of a cancellation.

STAY AWARE – Don’t let a delayed or canceled flight cloud your judgment. Scam artists are waiting to take advantage of your frustration. *Image: Alina Rosanova. Adobe Stock.*

The scam specifically targets people who search for an airline’s phone number online because their flight has been canceled or delayed. The fake phone numbers lead callers to an unrelated third party that will ask for your reservation information and credit card number to pay for a “service fee” or price difference between flights.

AAA Car CARE

What You Need to Know About Your Car Battery

Your car battery supplies the electrical current that the starter motor needs to crank the engine. It powers components and accessories when the engine is not running and, when electrical loads temporarily exceed the car's charging system capacity, the battery supplies the needed extra current. The battery also acts as a voltage stabilizer for the entire electrical system. Today's vehicles have more electrical demands than ever before, and batteries play an essential role in meeting those demands.

While manufacturers are always working on improvements, today's car batteries generally fall into two basic design categories:

- Flooded lead acid (FLA), which has been the standard for decades.
- Absorbent glass mat (AGM),

a newer design that offers advantages in specific applications.

The flooded battery and glass mat battery serve the same basic function, but do not work interchangeably. It's important to consult your owner's manual before you purchase a replacement battery.

While most modern designs claim to be maintenance free, there are a few things you can do to get maximum life out of a battery. You can complete these steps yourself or ask your auto service tech when you bring your car in for routine maintenance.

- Check and clean the corrosion from each battery terminal.
- Check and tighten the mounting hardware so the battery does not move around when the car hits bumps in the road.

Even though the alternator

keeps it charged, there will come a time to replace the battery. Car batteries last three to five years typically depending on a few different factors, such as climate. If you live in a location where higher average temperatures are the norm, you can expect more frequent car battery replacements.

After the second year, it's a good practice to have your auto tech do an annual test to determine the battery's remaining energy capacity. It's far better to identify a weak battery in the service bay than to have a dead battery out on the road.

Choose the right auto service professional

AAA makes it easy with open access to its network of more than 7,000 Approved Auto Repair facilities. Each AAR location meets AAA's high standards for tech

training and certification, customer satisfaction and more, taking the guesswork out of finding the right auto service professional. AAA also provides an easy-to-use online tool that calculates the estimated price including parts and labor and includes the AAA member discount.

AAA Mobile Battery Service

If your car won't start when you turn the key, turn to AAA for convenient mobile battery service. Whether you're stranded in your driveway, a parking lot or on the road, a professional car battery service tech will come to your location, conduct a free diagnostic test of your car's battery and starting and charging systems, and if needed, install a new battery on the spot. AAA also takes care of proper disposal and recycling of the replaced car battery. For more information, visit AAA.com/Battery.

AAA's Mobile Battery Service...
the Battery Service That Drives to You

AAA Battery Service drives convenience
and quality to you, wherever you are.

MEMBERS RECEIVE:

- FREE testing of your battery and charging system
- Batteries specially designed to withstand climate
- 3 Year Free Replacement Warranty
- Disposal and recycling of your old battery

Get an instant Battery Quote right from your smart phone with the Auto Club App. To download go to [AAA.com/app](https://www.aaa.com/app)

Call 800-AAA-HELP

(222-4357)

Consult your local AAA club regarding road service policies. The member discount is off the manufacturer's suggested retail price. AAA batteries are available for most vehicle makes and models. Battery Service is available in most territories.

AAA EMERGENCY ROAD SERVICE RULES

AAA's 24-hour Emergency Road Service means there is always a person to call in case of an automotive emergency. We'll rescue you and your vehicle to get you back on the road as quickly as possible with a dedicated network of more than 13,000 Emergency Road Service facilities across the U.S.A. and Canada.

AAA assistance includes changing a flat tire, jumping a dead battery or mobile battery testing and replacement service, delivering emergency gasoline or fuel, lockout and key service, or when all else fails, towing your car. We'll provide the assistance to help you get behind the wheel again as quickly and safely as possible. No one provides better roadside assistance than AAA.

AAA Emergency Road Service is available 24 hours a day, 7 days a week, and is designed to assist you in an emergency when your vehicle, or the vehicle in which you are a passenger, becomes disabled. Your membership coverage applies only to those emergency and towing services listed in this guide. AAA coverage entitles each AAA member in the Primary Member's household up to 4 calls per membership year. After 4 calls, members will be charged for service.

Your AAA Membership Card is Your Key to Service

To receive emergency road service, you must present your AAA membership card or dues receipt and a matching driver's license, or other state or federally issued photo identification to the independent-service provider when the service vehicle arrives. Your identification may be scanned or swiped to verify your identity and authenticity of identification.

Service is available only to the person named on the membership card, who is the driver of or a passenger in the vehicle at the time of the vehicle disablement. AAA memberships are not transferable, and membership service is not provided to nonmembers. Other members of your household who want emergency road service must have their own membership cards, in their own names, to obtain service.

Unless a valid AAA membership card and matching valid driver's license or other state or federally issued photo identification are presented at the time of service, you will be required to pay for the service provided at commercial rates. A non-refundable service fee applies each time you use roadside assistance for the first three days of your membership. See AAA.com/servicefee for fee amount.

To Obtain Service

AAA is only a phone call or click away! In the case of an automotive emergency, call the AAA number listed on your AAA membership card. You'll be connected to our 24-hour dispatch center or the AAA club in the area from where you are calling. You can also request emergency-road service online at AAA.com, or via the Auto Club App, which can be downloaded free of charge. To help speed our response, be prepared to:

- Provide your name, membership number and your club code listed on your membership card.
- Give the exact location of your disabled vehicle and the nature of the trouble.
- Provide the vehicle's year, make, color and license plate number.
- If possible, provide a telephone number where you can be reached.

Allowable Roadside Assistance Calls

Each AAA cardholder is entitled to four (4) emergency-road service calls or reimbursements for personal, non-commercial use per membership year at no charge, provided the calls meet the conditions described in this guide. There will be a service charge for each additional service call after the fourth call or reimbursement. AAA may require immediate payment of a service charge by credit or debit card for Classic benefit level service before providing emergency-road service on the fifth or subsequent service request in a membership year.

Additional charges for emergency-road service beyond the Classic benefit level, such as towing beyond 3 miles, the cost of emergency fuel and excess vehicle locksmith services, will be payable by the member at the time of service. If the member is unable to provide a valid credit or debit card to AAA at the time-of-service request or the charge is not approved by the credit or debit card company, AAA may send service on a C.O.D. basis, meaning all charges payable by the member will be paid directly to the independent-service provider at the time of service. If a cardholder has an unpaid service-charge balance and contacts AAA for emergency road service, AAA may require immediate payment of both the unpaid balance and the service charge for the current service call before providing service. The nonpayment of a service charge may result in cancellation of membership.

Mechanical First Aid

The AAA emergency service representative will make minor mechanical repairs or adjustments to place a vehicle in safe-driving condition. If needed and available, parts and the labor cost to install them are to be paid by the member. If the vehicle cannot be put into condition to proceed under its own power, towing service, as described in Towing Services, will be provided.

Flat Tire Service

If the vehicle's spare tire is inflated and serviceable, it will be installed in place of the vehicle's flat tire. If not, towing provisions will apply.

AAA Battery Service

AAA Battery Service is a mobile battery testing and replacement service. The AAA Battery Service technician will test and assess the vehicle's battery and electrical system. If the existing battery fails the test and the member would like to have the battery replaced, the member can purchase a AAA battery. The technician will install a new battery, if available, that meets or exceeds the vehicle's original specifications. Each AAA Premium battery is backed by a limited warranty that includes a 3-year free replacement guarantee. AAA Battery Service is generally provided by independent-service providers and is only available in select areas, during select hours. Batteries are available for most makes and models. Battery prices vary depending on vehicle make and model. Copies of the warranties are available for inspection from the technician at any time upon request. Membership emergency road service terms and conditions apply.

Fuel Delivery Service

An emergency supply of fuel will be delivered to a member's disabled vehicle enabling the member to reach the nearest service station. The member will be charged for the fuel at current pump prices. Specific quantities, brand, or octane ratings cannot be promised, nor can availability.

AAA Plus provides sufficient free emergency fuel to enable you to reach the nearest service station, when your vehicle runs out of fuel.

Towing Services

When your vehicle cannot be safely driven after attempting any of the listed emergency services, your vehicle will be towed (once per breakdown) to the facility rendering the service, or up to 3 miles in any direction from the point of disablement at no charge. Charges for service that exceed the benefits listed will be at the prevailing hourly or mileage rate for the region where service is provided. In instances when your vehicle becomes disabled while towing a light-duty trailer, service will be provided for the trailer. You will be required to pay for trailer towing. All vehicles must be free of snow and ice prior to towing.

AAA Plus provides up to 100 miles of free towing, in any direction from the point of disablement, to the repair facility of your choice.

AAA Premier increases one tow to a maximum 200 miles plus a free one-day rental car.

Extrication/Winchin

Your vehicle will be pulled out of a ditch by being extricated/winchd when it can be safely reached from a normally traveled or established thoroughfare (driveways must be cleared of snow or ice). If special equipment, additional service personnel or vehicles are required, the associated costs will be at your expense.

AAA Plus provides a second truck and second driver, for up to one hour, if your situation requires it.

Emergency Check Acceptance

Club and contract facilities will accept payment by check, credit or debit card for payment of emergency-road service charges up to \$250 per occurrence.

Lockout Service

If your keys are locked inside the vehicle, services will be sent to gain entrance. If your keys are lost, broken, or the service provider cannot gain entrance to your vehicle, locksmith services up to \$60 or, if a AAA locksmith is not available, reimbursement for locksmith service up to \$60, will be provided. In cases where the vehicle cannot be made operable, towing services will be provided according to our towing provision.

AAA Plus provides up to a total of \$100 in parts and labor to gain entry or make vehicle operable.

AAA Premier provides up to \$150 for Vehicle Locksmith, \$100 Home Lockout Service reimbursement.

Service Limitations

Emergency-road service will be limited to that which can be provided with equipment ordinarily used by the independent-service provider serving the area. Service will not be provided when the disabled vehicle cannot be safely reached or serviced without damage to the vehicle or servicing equipment.

SERVICE INCLUSIONS

Towing service is only provided for a covered vehicle disablement. Service may not be used as a substitute for regular maintenance necessary to keep a vehicle in good operating condition. AAA cannot render service repeatedly to a vehicle in need of repair. Service is intended for personal, non-commercial use, and only provided for a covered vehicle disablement. An individual's AAA membership may not be used by a business or organization to provide roadside-assistance service for its customers, employees or vehicles, including, but not limited to taxicabs, limousines, shuttles and other commercial vehicles for hire.

The following services are not provided under the membership benefit:

- Servicing or extrication of vehicles on inaccessible streets, back roads, driveways, parking lots or alleys that become snowbound or flooded.
 - Shoveling snow from around a vehicle or cleaning a road or driveway.
 - Service to a vehicle located in an area not regularly traveled by private-passenger vehicles (such as beach, open field, creek bed, private logging or forest service road).
 - Towing to or from auto dismantlers, salvage yards, repair facility to repair facility or from one storage location to another.
 - Towing for the purpose of transporting vehicles due to a purchase, sale, renovation, auction transaction, car show exhibition, charitable donation, relocation or any other similar situation.
 - Service to a vehicle that is loaded, altered or constructed in such a way as to cause damage or create a hazard while being serviced.
 - Charges related to impound or stolen-vehicle recovery, towing or storage.
 - Tire rotation, the installation or removal of snow tires or tire chains.
 - Cost of vehicle locksmith services beyond what is necessary to place the vehicle in a condition to be safely driven (such as duplicating keys, nonemergency lock repairs and re-keying of vehicle locks).
 - Service in situations where the membership card and matching valid driver's license or other state or federally issued photo identification is not provided to the service driver. You must provide a driver's license for identification if you are the driver.
 - Use of two or more roadside-assistance service calls to extend the member tow-mileage benefit for the same breakdown.
 - AAA Plus® members will be responsible for any additional mileage charges beyond 100 driving miles of towing per roadside-assistance call. AAA Premier® members will be responsible for any additional mileage charges beyond 200 driving miles of towing on one roadside-assistance service call per AAA Premier® household per membership year and beyond 100 driving miles of towing on the remaining allowable roadside-assistance service calls.
 - Towing, extrication/winchin and tire-change service for RVs and towing and extrication and winching services for motorcycles, unless the member has optional AAA Plus RV® or AAA Premier RV® coverage.
 - AAA Plus RV® members are entitled up to \$500 per allowable service call, and up to \$1,000 total per household per membership year on allowable RV/ Motorcycle service calls. Members will be responsible for all other costs of roadside service above that amount.
 - AAA Plus®, AAA Premier®, AAA Plus RV® and AAA Premier RV® emergency-road service is available 7 calendar days after purchase date if paid in full.
 - Without limiting any other rights or remedies it may have, AAA may seek reimbursement from a member or associate for roadside-assistance services fraudulently or wrongfully obtained by the member or associate. Primary members are responsible for the conduct and the service demands of their associates.
- Extended Roadside Assistance services for AAA Plus®, AAA Plus® RV, AAA Premier® or AAA Premier® RV benefit levels, where available, and certain AAA Premier benefits are effective seven (7) calendar days after processing, and receipt of the full payment due.
- Special Assistance**
- When your vehicle cannot be made operable upon providing the services listed in this guide, AAA will assist you in finding the nearest open place of repair. If a repair facility cannot be located, we will assist you in obtaining lodging or alternate transportation, which will be at your expense.
- Eligible Vehicles**
- Service applies to 4-wheeled motor-driven vehicles of the passenger, pleasure or recreational type that

were in operation immediately prior to disablement - provided that services can be safely delivered. If specific towing equipment is requested, but not required to safely transport the vehicle, the associated cost will be at your expense.

Automobiles, pickup trucks, sport utility vehicles, vans and minivans are eligible for those services which can be safely performed with equipment available from the independent-service provider, including slings, wheel-lift devices, car carriers (flatbeds) and dolly wheels. Dual-wheel unloaded pickup trucks are eligible for all services except tire services.

Motorcycle coverage is available with optional AAA Plus RV® coverage. Motorcycles (as defined by registration) must be licensed for highway use.

Recreational Vehicles (RVs) are eligible for service, with the exception of towing, extrication/winchin and tire-change service. Towing, extrication/winchin and tire service for RVs is available with optional AAA Plus RV® and AAA Premier RV® coverage. RVs include dual-wheel motorhomes, camper vans and cabover campers, motorcycles, and recreational trailers including camping trailers, fifth-wheel trailers and empty horse trailers. Boat trailers, personal watercraft trailers and ATV trailers must be either empty or transporting recreational vehicles or equipment. Utility trailers must be carrying recreational equipment (for non-commercial use). Commercial trailers are excluded. Service does not include transportation of horses.

Unable to Locate the Vehicle

If a service provider does not appear within the time stated by the AAA customer service representative, please call AAA back to let us know. The service provider may not have been able to locate your vehicle.

Cancel Unnecessary Calls

If the requested service is no longer needed and the AAA service representative has not yet arrived, please call AAA immediately, as each service call is charged against the member's record.

Weather Emergencies

During severe weather conditions, AAA reserves the right to suspend service temporarily if the vehicle is already in a place of safety, such as a private or public garage, driveway, etc. AAA will provide service to the vehicle after the weather emergency is over.

Alternate Service

If you have followed the procedure outlined to obtain emergency-road service, and AAA service is not available, you may obtain your own service, pay for it and submit the original receipt to your AAA club within 60 days. Reimbursement will be based on the prevailing commercial rate for the region where the vehicle was disabled. In instances where the AAA contractor access is legally restricted (toll roads, limited-access highways), reimbursement will be provided for all covered services. If AAA service was available, but not requested, reimbursement may be limited to the amount the club would normally have paid for the covered service.

No reimbursements will be made by AAA on charges incurred when a member's vehicle is removed from the street or under direction of the police because of illegal parking, traffic violations, or other illegal activities. Storage charges and cleanup fees from the scene of a traffic accident are also not eligible for reimbursement.

Members having more than 4 road-service calls during their membership year are not eligible for alternate service reimbursement.

Member's Risk

Before servicing any vehicle when there is a possibility of damage to the vehicle or other property as a result of the service, a service representative will inform the member that the member must assume the risk of damage. Any such circumstances should be fully recorded on a release form.

While AAA-affiliated service providers are selected to provide the best emergency-road service to our members, such providers are independent contractors and are not agents of AAA. AAA assumes no responsibility for any injuries to persons or property, including damage to the member's vehicle, as a result of an emergency-road service request.

AAA will make every reasonable effort to work out a settlement between a member and an affiliated service provider of the member's claim for damages resulting from unsatisfactory emergency road service. Please contact AAA as soon as possible, and no longer than 10 days of the incident, and prior to repairs so that a prompt investigation can be made while all facts are available.
